

## FSAA Online System Practice Tests Update

As of January 2016, Florida Standards Alternate Assessment (FSAA) practice materials kits are available in two formats for trainers and teachers:

- Paper-based kits
- [Practice Materials PDFs on the FSAA Portal](#)

Paper-based kits were distributed to Alternate Assessment Coordinators (AACs) and PDF versions for printing were made available to AACs and teachers in December 2015. Practice Materials are not secure, and therefore, any part of the set of materials may be reproduced.

Because the administration of online practice items will be different from how items are administered in the paper version of the assessment, the Florida Department of Education, in collaboration with Measured Progress (MP), made the decision to delay the release of the online practice tests until after the Spring 2016 FSAA administration. Online practice tests and the [FSAA Online System Practice Test Tutorial](#) will now be available in May/June 2016. The goal of the online practice tests is to give teachers and students an opportunity to sample the tasks in the online environment and should assist IEP Teams in determining whether computer-based administration is suitable for a student for the Spring 2017 FSAA. MP will follow-up with additional information related to the FSAA Online System Practice Test Tutorial after the spring 2016 administration window has closed.

**Teachers should continue to use paper-based practice materials kits and/or print the practice materials PDF files available on the FSAA Portal to prepare for the spring 2016 administration of the FSAA-Performance Task.**

Please distribute this information to teachers in your district as soon as possible.
